Tech Stack: MongoDB, Express.js, React.js, Node.js, JWT, Multer, Vercel, Render
Developed a full-featured project-sharing platform that enables authenticated users to upload, categorize, and view projects across Web, Mobile, and Data Science domains.

Key Features:
Authentication: Integrated JWT-based login and Google Sign-In for secure user authentication.

Project Uploads: Allowed users to upload any file type (ZIP, PDF, DOCX, etc.) with drag-and-drop support.

Thumbnail Preview: Displayed uploaded images as project thumbnails.

Smart Categorization: Projects are categorized and displayed separately on dedicated pages (Web, Mobile, Data).

Deployment: Deployed frontend to Vercel and backend to Render, ensuring scalability and performance.
